

*Blends with Homes*

**The Premier Gutter Cover**  
is an ingenious hybrid that accentuates  
the strengths of the traditional gutter  
protection designs while  
eliminating the inherent weaknesses.

Premier Gutter Cover is  
***“Not a Hood...Not a Screen...  
The Best of Both”***

*Heat tape can  
be added for  
de-icing systems*

*Virtually  
Maintenance  
Free*

**Our strong, low profile design  
utilizes rainwater to self clean  
the cover.**

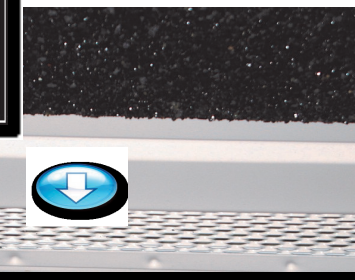

*High volume, fast moving  
water flow is no problem.*

*The louvered design utilizes rainwater to shed debris.*

Viewed from the  
direction debris &  
rain must travel -  
The holes disappear.

**Our patented louvered design  
sheds debris & captures the water!**

Traditional screens alone lack strength and  
actually trap & hold debris. Hood styles have  
trouble with large volumes of water and certain  
roof styles. They allow debris to enter the gutter  
and their bulky design detracts from the look of  
your home.

Our patented self-cleaning design features a  
louvered, expanded metal section which sheds debris  
and keeps it from entering the gutter, yet still allows  
for maximum water flow which helps flush the gutter  
system.

Premier Gutter Cover is unsurpassed in it's versatility  
and ability to handle extreme seasons and debris,  
such as maple tree spinners and pine and fir needles.

The strong and attractive powder coat finish,  
sleek design and affordable price make  
**Premier Gutter Cover**

***THE SMART CHOICE!***

***The Premier Gutter Cover  
Effective. Attractive. Affordable.  
The Smart Choice.***
